

## Vision and Mission

Our **Vision** is to motivate tomorrow's leaders by advancing their knowledge of the full spectrum of career demands and challenges in science and technology

Our **Mission** is to provide learning and development opportunities by:

- **Connecting** ideas and people across the spectrum of education, public and private enterprise and science and technology
- **Investing** in the early career development of gifted students of science and technology
- **Building** new programs that emulate real world circumstances and help improve students' chances of success
